

Enhance the life of a young adult

...PULLING LIVES TOGETHER

SERVICES FOR YOUNG ADULTS (18-30)

Reaching 18 often signals abrupt changes to the support provided to those of you with disabilities.

At EnhanceAble we're determined to plug such gaps, and ensure you have the continuity of care, support and opportunity you need and deserve.

What can we offer you?

- **1 to 1 support.** Our hand-picked staff team can help you to acquire vital new social skills, and also develop your confidence and independence.
- **Daytime services.** These include a changing mix of therapies, support and activities. Geneva Road is itself a vibrant and supportive community.
- **Respite care.** This is available to young adults with a variety of disabilities at our house called 'Space'. As a service user, you'll often go on trips and do activities outside its four walls.

We also provide services for:

- Children
- Teenagers
- Adults
